RECORD

June

1964

Once again this issue of the Record marks a step forward with the presentation of a new logo. The logo design on the front cover is another result of the Alumni publications committee on which KEN PELOQUIN, BOB BOYLE and BILL BRANT have been working. You can look forward to seeing the design in future magazines and in other printed materials emanating from the Alumni office.

A story on the Reunion weekend appears elsewhere in this issue, together with a number of photos. An integral part of that weekend was the annual Alumni meeting, and some significant happenings occurred there, too. After many hours of work in the weeks and months preceding the meeting, board member MILES "CHAPPY" MCDONNELL and his committee had ready for presentation a revised charter and by-laws for the Rollins Alumni organization. While they contained no major changes in structure or policy, the revisions, adopted at the annual meeting, bring us totally up-to-date. Now when questions arise, we need only refer to these official Alumni documents. At the same time these documents were substantially shortened, so that we now have a brief, yet thorough and complete set of guidelines. Rollins Alumni remains a non-profit corporation, incorporated under the laws of the State of Florida for eleemosynary purposes. The full legal name is Rollins College Alumni Association, Inc. To my knowledge, such a title is used by practically all college and university Alumni groups in the country (at the moment I can think of none that use another name), and while this puts us in an "ordinary" classification, we are confident that the Rollins Alumni will prove itself to be an extraordinarily vigorous and active group in the future.

EDITORIAL COMMENT

Alumni election results were also announced at the annual meeting, and immediately thereafter (in accordance with the by-laws) the new Board of Directors met to select their officers for the year. The names of all of these people appear on the next page, and I urge you to become familiar with these names. You will hear and see more of them throughout the coming year.

The new Board of Directors and new officers are representative of the new forward looking posture of the Rollins Alumni Association. They are intelligent, capable people willing and able to discuss and adopt new ideas and programs and enthusiastic enough to see them through to successful conclusions. In selecting AL CHUBB for his second term as president, the Board carried out a decision that was as unanimous as any I have ever seen. In short, the Alumni has a team of volunteer leaders who are exceptionally well qualified. You will see many accomplishments before they complete their terms of office.

This provides me an opportunity also to acknowledge the services of those Alumni who have completed terms of office. These include Alumni Trustee ROBERT ROBERTSON and Alumni board members ELFREDA RAMSEY (1st vice president), BETTY JOHNSON and H. BROWN ANDREWS (secretary).

These people have spent a great many hours laboring for Rollins College and, in a gesture we hope is indicative of a new spirit among Alumni, all four accepted assignments on the fieldhouse effort after their terms of office had ended.

With people like these on our Rollins "team" it becomes much easier to predict victory in any undertaking important to the future of Rollins.

ABOUT THE COVER

It is not easy to assemble ten students in one place at an appointed time, but college photographer Lyman Huntington managed it. The students depict a few of the activities the Enyart Alumni Fieldhouse will facilitate, a report of which is included in this issue. The new, official Alumni logo appears on the cover for the first time. You will see it there, and on other Alumni publications, in each succeeding issue.

The ALUMNI RECORD is published by Rollins Alumni, Rollins College, Winter Park, Florida, five times per year, and is distributed exclusively to graduates and former students of Rollins College. This issue is Volume 41, Number 3.

The Enyart

The clarion call has sounded for Rollins Alumni in Florida as volunteer leaders in the fieldhouse campaign carry their efforts from door to door in an attempt to personally contact each of the approximately 2500 Alumni in the state. Their message is compellingly simple. "Rollins needs a fieldhouse. The Alumni have agreed to build it for the college. Here is your opportunity to participate."

Conceived by the national fieldhouse chairman TOM JOHNSON of Pittsburgh and his chairman for Florida, HOWARD SHOWALTER, the move is designed to bring the program "to the people" in a manner not achieved heretofore. When completed, all Rollins Alumni living in the state of Florida will have been contacted personally and given an opportunity to participate. Subsequently, an attempt will be made to organize Alumni in metropolitan areas throughout the country wherever an adequate number of Rollinsites reside and carry on a similar personal contact program.

Early this year chairman JOHNSON and key Alumni carefully reviewed the fieldhouse program. Previous efforts had netted nearly \$90,000 in cash and pledges. Leadership gifts acquired by JOHNSON plus very early returns from SHOWALTER's Florida effort had raised the cash and pledges total to \$225,000 by June 1. While this represents about half the total goal, Rollins trustees have presently passed a resolu-

RAISING THE ROOF AT ROLLINS

Alumni Fieldhouse

tion authorizing construction to begin as soon as enough funds are available to construct a useable unit.

Alumni volunteer leaders have that first goal in sight and are firming up plans to begin construction late in 1964.

In the meantime, hundreds of Florida Alumni are giving considerable time, effort and funds to the project. Among those in Central Florida are: BEN AYCRIGG '49; THIRZA (FLUNO) BISSON '32; EVA (THOMPSON) CARSON '26; THOMAS COSTELLO '39; RAYMOND W. GREENE '23; GEORGE HINES '36; SARA (HARBOTTLE) HOWDEN '35; TED MISCHUCK '47; DONALD OGILVIE '40; ROBERT ROBERTSON '34; MALCOLM WHITELAW '38; BECKY (COLEMAN) WILSON '34; SCOTT WITHERELL '51; JOHN ORR '63; RICHARD WILLIAMS '57.

Outside Central Florida, the following Alumni are working in geographical areas of varying sizes: PETER FAY '51, Miami; THOMAS BLAKEMORE '50, Palm Beach; GINGER (NELSON) SPEARS '55, Cocoa Beach; LEWIS '38 and VIOLET (HALFPENNY) '37 WALLACE, New Smyrna; WILLIAM SCHEU '39, Jacksonville; CAMILLE JONES '64, Ocala; DANIEL CONTINI '33, Tallahassee; HOWARD SHOWALTER '36, Orlando; SUE (TERRY) BOSWELL '40, Tampa; GLENN BARRINGTON '50, Tampa; WILLIAM '43 and MARION (RUSS) '42 JUSTICE, Clearwater; RONALD FRYMIRE '51, Sarasota.

CAMPAIGN LEADERS

Leading figures in the revitalized Enyart Alumni Fieldhouse campaign are: prominent Pittsburgh attorney and national fieldhouse chairman, THOMAS P. JOHNSON '34 (center), flanked by airplane service executive and fieldhouse chairman for all of Florida, HOWARD SHOWALTER '36, and Winter Park bank executive and President of Rollins Alumni Association, ALBERT H. CHUBB '53.

The Rollins Sports

Picture

BASEBALL

Coach JOE JUSTICE has built a winning tradition in baseball at Rollins, and the 1964 season was no exception. The Tars started off in the wrong direction—losing four of their first five outings, but came roaring back to take 19 of their next 24 ball games. When the campaign was over, Rollins had recorded a record of 21 victories against 11 defeats.

The Rollins baseball squad tied Miami for first place in the Florida Intercollegiate Conference by taking three pressure packed games from Tampa. Both the Tars and Miami ended the season with 12-3 records in FIC competition. Coach JUSTICE's squad was the only team in the league, however, to win at least two games from all FIC opponents.

Other victories for the Tars, who played the majority of the season with four freshmen in the starting lineup, came at the expense of such schools as Ohio State, Colby, Duke, Amherst, Valparaiso, Susquehanna, and Florida.

Individually the Tars had a number of standouts, perhaps the most noteworthy of which was junior pitcher Mickey Clark. Prior to the beginning of the current season, Clark had never started a collegiate baseball game on the mound. He came to Rollins as a first baseman-outfielder.

Exhibiting a sharp breaking curve, Clark was given the starting nod for an early season game against Ohio State, and the crafty lefty from Griffin, Georgia, responded with a near-perfect 2-0 shutout.

Clark went on to compile a perfect 6-0 record over the season. He gave up just three earned runs in 60 $\frac{2}{3}$ innings, for an earned run average of 0.445—believed to be the top figure in this department in collegiate baseball. Troubled with a sore arm, Clark missed one month of action, but came back on the final day of the season to pitch a masterful game against the University of Florida. He hurled all 11 innings—giving up just one unearned run in the first inning, as the Tars went on to defeat their neighbors to the north, 2-1.

Heading the Rollins hitters was freshman Bob Gustafson — who clouted the ball at a .381 clip. The hard hitting rightfielder saw action in every inning of the season, and led the club in at bats, runs scored, and number of hits. He tied for the lead in doubles with eight.

The 1964 spring sports proved most successful as far as Rollins College athletes were concerned. All four varsity teams — baseball, crew, golf, and tennis compiled impressive records against formidable opposition.

CREW

Coach U. T. Bradley's Rollins varsity crew experienced another outstanding season. Included among their conquests were victories over American University, LaSalle, Purdue, Amherst, American International, Florida Southern, Tampa and Jacksonville. The Tars dropped dual races to Princeton, Wisconsin, and Boston University.

In the annual Florida State Regatta, Rollins continued to reign supreme—the Tars had little trouble capturing their fourth consecutive state crown. In the well-known Dad Vail competition at Philadelphia, Rollins won the consolation heat—giving the Tars an official seventh place finish among the more than 20 crews competing.

The Rollins junior varsity took the top prize for JV crews in small college rowing when it won the Dad Vail Regatta for junior varsity crews, defeating 14 other entries. The Baby Tars also won the State Regatta for JV crews — marking the fourth straight year that the Rollins JV shell has turned this feat. The Tars also recorded a convincing triumph over Boston University on the Charles River two days prior to the Dad Vail competition. The Rollins junior varsity won eight of nine dual races, plus the state and Dad Vail crowns.

TENNIS

Coach NORM COPELAND's Rollins tennis squad had one of its best seasons—taking 13 of 17 dual matches. The Tar netters, paced by tri-captains, "Half of our team this year is made up of captains," said COPELAND during the 1964 season, defeated such opponents as Pennsylvania, Notre Dame, Columbia, Davidson, Duke, Stetson, and Florida Southern.

When Rollins defeated Duke, March 31, it marked the 100th victory for NORM COPELAND as tennis coach at Rollins. He celebrated this milestone by going ahead to win his seven remaining dual matches.

GOLF

Another consistently successful varsity sport in which Rollins athletes compete is golf, and the Tar linksters maintained their winning ways by taking 10 of 12 dual matches. The Rollins golfers, headed by senior captain, coach, manager and water boy, Bob Kirouac, defeated the University of Wisconsin, Stetson, and Florida Southern, while losing to Miami. The Tar linksters finished fourth in the Miami Invitational Golf Tournament, sixth in the Cape Coral Tournament, and second in the Florida Intercollegiate Conference tourney.

'65

OUTLOOK GREAT!

Thus it becomes quite clear that, as has been the custom, the Rollins College athletes dominated play during spring sports. What about next year—

The 1964 spring sports at Rollins were extremely successful — with the Tar athletes winning 62 events, while losing just 21. These figures will be hard to beat, but it looks like next year's clubs will be just as strong — which gives Tar opponents the shudders, and Tar coaches smiles.

Rollins veteran tennis professional and coach NORMAN COPELAND, weary of being the small man among giants, had himself superimposed on this picture with his 1964 Rollins team. COPELAND'S team chalked up a

13-4 record in dual meets this season, enough to move COPELAND'S total number of victories during his nine years at Rollins to 107.

REUNION, 1964

A Time to Reminisce . . .

Class Reunions are among those rare things in life designed exclusively for fun. But while Rollins Alumni showed up in greater numbers than ever before at the annual spring reunion at the end of April and had a most enjoyable time, they also showed themselves interested in more than the simple *joi de vivre*.

The stream of returning Alumni began flowing onto the campus on Friday. By mid-afternoon class secretaries were hard at work in a workshop planned by KEN PELOQUIN and his Alumni publications committee, and designed ultimately to further improve this magazine. By Friday evening class secretaries and a multitude of other Alumni were ready for fun and had gathered at the lake shore for the traditional picnic and water show, the latter courtesy of venerable Alumnus, FLEET PEEPLES and some of his talented water loving students.

The fun continued at class parties late into the night when Pioneer Alumni gathered at the DON CHENEY home while all others mingled freely at the Winter Park Racquet Club.

But a more serious, if truly enjoyable as well, attitude prevailed as Alumni filled Bingham Hall to hear President MCKEAN and hear for the first time, two new deans, Edwin S. Burdell and Spencer Lane early Saturday morning. If the Alumni were not "current" on Rollins before, they certainly were when they left, and they heard some compelling evidence of Rollins' lofty position in the academic world from President MCKEAN.

Elsewhere that morning a few Alumni were proving their masculinity, and perhaps their foolhardiness, by beating the students at softball. (There are some who believe the students "threw" this game, a rumor vigorously denied by participating Alumni.)

Three members of the class of 1914 received a Rolins plate and orchid corsage from President Hugh McKean at the annual Reunion dinner. From left to right

they are: PAULINE (AYRES) BLANCHARD from Maxville, Florida; KATHLEEN (HILL) BUCHER from Maitland, Florida; FLORENCE BETTS from Erie, Pennsylvania.

Welcoming Alumni at the eighth annual Reunion was a quartet of attractive Alumni: GINNY MENDINHALL '64, EVE (THOMPSON) CARSON '26, ELEANOR SCRUGGS '62 and GWEN (BARTHOLOMEW) PATTERSON '32.

a time to Relax . . .

The lake front was crowded as Alumni mixed chicken and fish with animated reminiscing. During and following the picnic Alumni were treated to a water show which included sky divers plunging into Lake Virginia.

Luncheon saw the Gay 90's, Rollins very earliest Alumni, gather for their annual luncheon under the tutelage of **Dr. Fred Ensminger**. And while the men headed for the baseball park (Rollins won two), the distaff element attended a fashion show luncheon sponsored by the Student Association.

The vigorous Pioneers, Rollinsites from 1925 and earlier, displayed their exceptional endurance by meeting on Sunday after all other reunion activities were completed. Pioneers president **DON CHENEY** presided at the meeting, and later turned the gavel over the incoming President **CARYL TWITCHELL**.

A group of 25 enjoyed the Gay 90's Luncheon on Saturday. Among the celebrants are two members of the Gay 90's group: STELLA WATERHOUSE, FRED ENSMINGER (Convenor), with MARJORIE BLACKMAN WALLACE '12, PATRICIA MAKINSON '26.

Serving at the Pioneers Party at the home of Mr. and Mrs. DON CHENEY (FANNIE ROBINSON), pictured at right, is Mrs. Davis Fishback (LILLIAN WILMOTT).

a time to Review . . .

The event of the weekend is always the annual dinner-dance, and Dubsdread Country Club was overflowing when Alumni gathered to enjoy traditional college fellowship and honor special reunion classes. The speech making was brief—a warm welcome from President MCKEAN, a few words of inspiration from Alumni President AL CHUBB (re-elected for another term that morning), an enthusiastic fieldhouse report by HOWARD SHOWALTER following up national chairman TOM JOHNSON's report that morning—when newly-elected Alumni Trustee WARREN HUME arose to deliver a warm and sincere tribute to veteran crew coach (and history professor) U. T. Bradley. Alumni who had rowed for Bradley chipped in to purchase a variety of gifts including a silver tray, and silver goblets and cups for each of the 30 years "Brad" has coached. The silver "trophy" designed and executed by Alumnus RAY HICKOK and sincere outpouring of affection brought a tremor to the crusty voice that has barked loudly over the waters of Lake Maitland these many years.

By the time the week-end ended, not a dissenting voice could be heard, and the judgment seems unanimous that it was the most pleasant ever. Sunday morning's special Alumni Chapel service and the President's reception added a perfect opportunity for quiet greetings and farewells—until next year.

Former Dean Marion Cleveland has the floor temporarily at this informal gathering at the Reunion. With her are Mr. and Mrs. WILLIAM R. GORDON '51.

Pictured at the Pioneers Luncheon, climaxing the Reunion activities on Sunday are: Mrs. J. Harold Hill, President HUGH MCKEAN, DON CHENEY '07 and J. HAROLD HILL '20.

Enjoying themselves at the "All Class" Reunion party, held at the Winter Park Racquet Club, where three husband and wife teams of Alumni. From left: Warren Hume '39, newly-elected trustee, Augusta (Yust) Hume '39, Nancy (Locke) Johnson '41, Smoke (Sholley) Clanton '43, Mel Clanton '41, Joe Johnson '40.

. . . and a time to Remember!!

The featured speaker at the annual Reunion dinner was Dr. U. T. Bradley. Following his address Brad was surprised with an award of silver cups and a variety of other gifts made possible by Alumni who rowed on his crews over the past thirty years. Mrs. Bradley seems equally pleased and surprised as HOWARD SHOWALTER, ALBERT CHUBB and Mrs. Showalter look on approvingly.

Congratulations, "Brad"!

A SPECIAL REPORT FOR ALUMNI

Several years ago a group of college and university editors in the country organized Educational Projects for Education, Inc. Their colleagues, Alumni staff members from campuses across the country, promptly dubbed the organization "Moonshooter."

One of Moonshooter's major tasks since its inception has been the compilation, annually, of a report in depth on some vital phase of higher education in the United States. This annual feature is made available exclusively to colleges and universities holding membership in the American Alumni Council. It is printed in advance, and shipped in bulk to be inserted in Alumni magazines.

Moonshooter inserts have been distributed in recent years to many Alumni magazines, at times reaching a potential audience of several million college Alumni. This makes the first appearance in the Rollins Alumni Record.

The Money Behind Our Colleges

ARE AMERICA'S colleges and universities in good financial health—or bad?

Are they pricing themselves out of many students' reach? Or can—and should—students and their parents carry a greater share of the cost of higher education?

Can state and local governments appropriate more money for higher education? Or is there a danger that taxpayers may “revolt”?

Does the federal government—now the third-largest provider of funds to higher education—pose a threat to the freedom of our colleges and universities? Or is the “threat” groundless, and should higher education seek even greater federal support?

Can private donors—business corporations, religious denominations, foundations, alumni, and alumnae—increase their gifts to colleges and universities as greatly as some authorities say is necessary? Or has private philanthropy gone about as far as it can go?

There is no set of “right” answers to such questions. College and university financing is complicated, confusing, and often controversial, and even the administrators of the nation's institutions of higher learning are not of one mind as to what the best answers are.

One thing is certain: financing higher education is not a subject for “insiders,” alone. Everybody has a stake in it.

Where U.S. colleges and universities get their income

THESE DAYS, most of America's colleges and universities manage to make ends meet. Some do not: occasionally, a college shuts its doors, or changes its character, because in the jungle of educational financing it has lost the fiscal fitness to survive. Certain others, qualified observers suspect, hang onto life precariously, sometimes sacrificing educational quality to conserve their meager resources. But most U.S. colleges and universities survive, and many do so with some distinction. On the surface, at least, they appear to be enjoying their best financial health in history.

The voice of the bulldozer is heard in our land, as new buildings go up at a record rate. Faculty salaries in most institutions—at critically low levels not long ago—are, if still a long distance from the high-tax brackets, substantially better than they used to be. Appropriations of state funds for higher education are at an all-time high. The federal government is pouring money into the campuses at an unprecedented rate. Private gifts and grants were never more numerous. More students than ever before, paying higher fees than ever before, crowd the classrooms.

How real is this apparent prosperity? Are there danger signals? One purpose of this report is to help readers find out.

HOW DO colleges and universities get the money they run on? By employing a variety of financing processes and philosophies. By conducting, says one participant, the world's busiest patchwork quilting-bee.

U.S. higher education's balance sheets—the latest of which shows the country's colleges and universities receiving more than \$7.3 billion in current-fund income—have been known to baffle even those men and women who are at home in the depths of a corporate financial statement. Perusing them, one learns that even the basic terms have lost their old, familiar meanings.

“Private” institutions of higher education, for example, receive enormous sums of “public” money—including more federal research funds than go to all so-called “public” colleges and universities.

And “public” institutions of higher education own some of the largest “private” endowments. (The endowment of the University of Texas, for instance, has a higher book value than Yale's.)

When the English language fails him so completely, can higher education's balance-sheet reader be blamed for his bafflement?

IN A RECENT year, U.S. colleges and universities got their current-fund income in this fashion:

- 20.7% came from student tuition and fees.
- 18.9% came from the federal government.
- 22.9% came from state governments.
- 2.6% came from local governments.
- 6.4% came from private gifts and grants.

9.4% was other educational and general income, including income from endowments.

17.5% came from auxiliary enterprises, such as dormitories, cafeterias, and dining halls.

1.6% was student-aid income.

Such a breakdown, of course, does not match the income picture at any actual college or university. It includes institutions of many shapes, sizes, and financial policies. Some heat their classrooms and pay their professors largely with money collected from students. Others receive relatively little from this source. Some balance their budgets with large sums from governments. Others not only receive no such funds, but may actively spurn them. Some draw substantial interest from their endowments and receive gifts and grants from a variety of sources.

"There is something very reassuring about this assorted group of patrons of higher education," writes a college president. "They are all acknowledging the benefits they derive from a strong system of colleges and universities. Churches that get clergy, communities that get better citizens, businesses that get better employees—all share in the costs of the productive machinery, along with the student . . ."

In the campus-to-campus variations there is often a deep significance; an institution's method of financing may tell as much about its philosophies as do the most eloquent passages in its catalogue. In this sense, one should understand that *whether* a college or university receives enough income to survive is only part of the story. *How* and *where* it gets its money may have an equally profound effect upon its destiny.

from Students 20.7 per cent

LAST FALL, some 4.4 million young Americans were enrolled in the nation's colleges and universities—2.7 million in public institutions, 1.7 million in private.

For most of them, the enrollment process included a stop at a cashier's office, to pay tuition and other educational fees.

How much they paid varied considerably from one campus to another. For those attending public institutions, according to a U.S. government survey, the median in 1962-63 was \$170 per year. For those attending private institutions, the median was \$690—four times as high.

There were such differences as these:

In public universities, the median charge was \$268.

In public liberal arts colleges, it was \$168.

In public teachers colleges, it was \$208.

In public junior colleges, it was \$113.

Such educational fees, which do not include charges for meals or dormi-

PRIVATE INSTITUTIONS:
34.3% of their income
comes from student fees.

PUBLIC INSTITUTIONS:
10% of their income
comes from student fees.

TUITION continued

Are tuition charges becoming too burdensome?

tory rooms, brought the nation's public institutions of higher education a total of \$415 million—one-tenth of their entire current-fund income.

By comparison:

In private universities, the median charge was \$1,038.

In private liberal arts colleges, it was \$751.

In private teachers colleges, it was \$575.

In private junior colleges, it was \$502.

In 1961-62, such student payments brought the private colleges and universities a total of \$1.1 billion—more than one-third of their entire current-fund income.

From all students, in all types of institution, America's colleges and universities thus collected a total of \$1.5 billion in tuition and other educational fees.

NO NATION puts more stock in maximum college attendance by its youth than does the United States," says an American report to an international committee. "Yet no nation expects those receiving higher education to pay a greater share of its cost."

The leaders of both private and public colleges and universities are worried by this paradox.

Private-institution leaders are worried because they have no desire to see their campuses closed to all but the sons and daughters of well-to-do families. But, in effect, this is what may happen if students must continue to be charged more than a third of the costs of providing higher education—costs that seem to be eternally on the rise. (Since one-third is the average for *all* private colleges and universities, the students' share of costs is lower in some private colleges and universities, considerably higher in others.)

Public-institution leaders are worried because, in the rise of tuition and other student fees, they see the eventual collapse of a cherished American dream: equal educational opportunity for all. Making students pay a greater part of the cost of public higher education is no mere theoretical threat; it is already taking place, on a broad scale. Last year, half of the state universities and land-grant institutions surveyed by the federal government reported that, in the previous 12 months, they had had to increase the tuition and fees charged to home-state students. More than half had raised their charges to students who came from other states.

CAN THE RISE in tuition rates be stopped—at either public or private colleges and universities?

A few vocal critics think it should not be; that tuition should, in fact, go up. Large numbers of students can afford considerably more than they are now paying, the critics say.

"Just look at the student parking lots. You and I are helping to pay for those kids' cars with our taxes," one campus visitor said last fall.

Asked an editorial in a Tulsa newspaper:

"Why should taxpayers, most of whom have not had the advantage of college education, continue to subsidize students in state-supported universities who have enrolled, generally, for the frank purpose of eventually earning more than the average citizen?"

An editor in Omaha had similar questions:

"Why shouldn't tuition cover more of the rising costs? And why shouldn't young people be willing to pay higher tuition fees, and if necessary borrow the money against their expected earnings? And why shouldn't tuition charges have a direct relationship to the prospective earning power—less in the case of the poorer-paid professions and more in the case of those which are most remunerative?"

Such questions, or arguments-in-the-form-of-questions, miss the main point of tax-supported higher education, its supporters say.

"The primary beneficiary of higher education is society," says a joint statement of the State Universities Association and the Association of State Universities and Land-Grant Colleges.

"The process of making students pay an increasing proportion of the costs of higher education will, if continued, be disastrous to American society and to American national strength.

"It is based on the theory that higher education benefits only the individual and that he should therefore pay immediately and directly for its cost—through borrowing if necessary. . . .

"This is a false theory. . . . It is true that great economic and other benefits do accrue to the individual, and it is the responsibility of the individual to help pay for the education of others on this account—through taxation and through voluntary support of colleges and universities, in accordance with the benefits received. But even from the narrowest of economic standpoints, a general responsibility rests on society to finance higher education. The businessman who has things to sell is a beneficiary, whether he attends college or not, whether his children do or not. . . ."

Says a university president: "I am worried, as are most educators, about the possibility that we will price ourselves out of the market."

For private colleges—already forced to charge for a large part of the cost of providing higher education—the problem is particularly acute. As costs continue to rise, where will private colleges get the income to meet them, if not from tuition?

After studying 100 projections of their budgets by private liberal arts colleges, Sidney G. Tickton, of the Fund for the Advancement of Education, flatly predicted:

"Tuition will be much higher ten years hence."

Already, Mr. Tickton pointed out, tuition at many private colleges is beyond the reach of large numbers of students, and scholarship aid isn't large enough to help. "Private colleges are beginning to realize that they haven't been taking many impecunious students in recent years. The figures show that they can be expected to take an even smaller proportion in the future.

**Or should students
carry a heavier
share of the costs?**

CONTINUED

TUITION continued

PRIVATE INSTITUTIONS:
1.4% of their income
comes from the states.

22.9 per cent

PUBLIC INSTITUTIONS:
22.9% of their income
comes from the states.

"The facts are indisputable. Private colleges may not like to admit this or think of themselves as educators of only the well-heeled, but the signs are that they aren't likely to be able to do very much about it in the decade ahead."

What is the outlook at public institutions? Members of the Association of State Colleges and Universities were recently asked to make some predictions on this point. The consensus:

They expect the tuition and fees charged to their home-state students to rise from a median of \$200 in 1962-63 to \$230, five years later. In the previous five years, the median tuition had increased from \$150 to \$200. Thus the rising-tuition trend would not be stopped, they felt—but it would be slowed.

THE ONLY alternative to higher tuition, whether at public or private institutions, is increased income from other sources—taxes, gifts, grants. If costs continue to increase, such income will have to increase not merely in proportion, but at a faster rate—if student charges are to be held at their present levels.

What are the prospects for these other sources of income? See the pages that follow.

from States

COLLEGES and universities depend upon many sources for their financial support. But one source towers high above all the rest: the American taxpayer.

The taxpayer provides funds for higher education through all levels of government—federal, state, and local.

Together, in the most recent year reported, governments supplied 44.4 per cent of the current-fund income of all U.S. colleges and universities—a grand total of \$3.2 billion.

This was more than twice as much as all college and university students paid in tuition fees. It was nearly seven times the total of all private gifts and grants.

By far the largest sums for educational purposes came from state and local governments: \$1.9 billion, altogether. (Although the federal government's over-all expenditures on college and university campuses were large—nearly \$1.4 billion—all but \$262 million was earmarked for research.)

STATES HAVE HAD a financial interest in higher education since the nation's founding. (Even before independence, Harvard and other colonial colleges had received government support.) The first state university, the University of Georgia, was chartered in 1785. As settlers

moved west, each new state received two townships of land from the federal government, to support an institution of higher education.

But the true flourishing of publicly supported higher education came after the Civil War. State universities grew. Land-grant colleges were founded, fostered by the Morrill Act of 1862. Much later, local governments entered the picture on a large scale, particularly in the junior-college field.

Today, the U.S. system of publicly supported colleges and universities is, however one measures it, the world's greatest. It comprises 743 institutions (345 local, 386 state, 12 federal), compared with a total of 1,357 institutions that are privately controlled.

Enrollments in the public colleges and universities are awesome, and certain to become more so.

As recently as 1950, half of all college and university students attended private institutions. No longer—and probably never again. Last fall, the public colleges and universities enrolled 60 per cent—one million more students than did the private institutions. And, as more and more young Americans go to college in the years ahead, both the number and the proportion attending publicly controlled institutions will soar.

By 1970, according to one expert projection, there will be 7 million college and university students. Public institutions will enroll 67 per cent of them.

By 1980, there will be 10 million students. Public institutions will enroll 75 per cent of them.

THE FINANCIAL implications of such enrollments are enormous. Will state and local governments be able to cope with them?

In the latest year for which figures have been tabulated, the current-fund income of the nation's public colleges and universities was \$4.1 billion. Of this total, state and local governments supplied more than \$1.8 billion, or 44 per cent. To this must be added \$790 million in capital outlays for higher education, including \$613 million for new construction.

In the fast-moving world of public-college and university financing, such heady figures are already obsolete. At present, reports the Committee for Economic Development, expenditures for higher education are the fastest-growing item of state and local-government financing. Between 1962 and 1968, while expenditures for all state and local-government activities will increase by about 50 per cent, expenditures for higher education will increase 120 per cent. In 1962, such expenditures represented 9.5 per cent of state and local tax income; in 1968, they will take 12.3 per cent.

Professor M.M. Chambers, of the University of Michigan, has totted up each state's tax-fund appropriations to colleges and universities (see list, next page). He cautions readers not to leap to interstate comparisons; there are too many differences between the practices of the 50 states to make such an exercise valid. But the differences do not obscure

**Will state taxes
be sufficient to meet
the rocketing demand?**

continued opposite

the fact that, between fiscal year 1961 and fiscal 1963, all states except Alabama and Montana increased their tax-fund appropriations to higher education. The average was a whopping 24.5 per cent.

Can states continue to increase appropriations? No one answer will serve from coast to coast.

Poor states will have a particularly difficult problem. The Southern Regional Education Board, in a recent report, told why:

"Generally, the states which have the greatest potential demand for higher education are the states which have the fewest resources to meet the demand. Rural states like Alabama, Arkansas, Mississippi, and South Carolina have large numbers of college-age young people and relatively small per-capita income levels." Such states, the report concluded, can achieve educational excellence only if they use a larger proportion of their resources than does the nation as a whole.

A leading Western educator summed up his state's problem as follows:

"Our largest age groups, right now, are old people and youngsters approaching college age. Both groups depend heavily upon the producing, taxpaying members of our economy. The elderly demand state-financed welfare; the young demand state-financed education.

"At present, however, the producing part of our economy is composed largely of 'depression babies'—a comparatively small group. For the next few years, their per-capita tax burden will be pretty heavy, and it may be hard to get them to accept any big increases."

But the alternatives to more tax money for public colleges and universities—higher tuition rates, the turning away of good students—may be even less acceptable to many taxpayers. Such is the hope of those who believe in low-cost, public higher education.

EVERY projection of future needs shows that state and local governments must increase their appropriations vastly, if the people's demands for higher education are to be met. The capacity of a government to make such increases, as a California study has pointed out, depends on three basic elements:

- 1) The size of the "stream of income" from which the support for higher education must be drawn;
- 2) The efficiency and effectiveness of the tax system; and
- 3) The will of the people to devote enough money to the purpose.

Of these elements, the third is the hardest to analyze, in economic terms. It may well be the most crucial.

Here is why:

In their need for increased state and local funds, colleges and universities will be in competition with growing needs for highways, urban renewal, and all the other services that citizens demand of their governments. How the available tax funds will be allocated will depend, in large measure, on how the people *rank* their demands, and how insistently they make the demands known.

"No one should know better than our alumni the importance of having society invest its money and faith in the education of its young people," Allan W. Ostar, director of the Office of Institutional Research, said recently. "Yet all too often we find alumni of state universities who are not willing to provide the same opportunity to future generations that they enjoyed. Our alumni should be leading the fight for adequate tax support of our public colleges and universities.

"If they don't, who will?"

TO SOME Americans, the growth of state-supported higher education, compared with that of the private colleges and universities, has been disturbing for other reasons than its effects upon the tax rate.

One cause of their concern is a fear that government dollars inevitably will be accompanied by a dangerous sort of government control. The fabric of higher education, they point out, is laced with controversy, new ideas, and challenges to all forms of the status quo. Faculty members, to be effective teachers and researchers, must be free of reprisal or fears of reprisal. Students must be encouraged to experiment, to question, to disagree.

The best safeguard, say those who have studied the question, is legal autonomy for state-supported higher education: independent boards of regents or trustees, positive protections against interference by state agencies, post-audits of accounts but no line-by-line political control over budget proposals—the latter being a device by which a legislature might be able to cut the salary of an "offensive" professor or stifle another's research. Several state constitutions already guarantee such autonomy to state universities. But in some other states, college and university administrators must be as adept at politicking as at educating, if their institutions are to thrive.

Another concern has been voiced by many citizens. What will be the effects upon the country's private colleges, they ask, if the public-higher-education establishment continues to expand at its present rate? With state-financed institutions handling more and more students—and, generally, charging far lower tuition fees than the private institutions can afford—how can the small private colleges hope to survive?

President Robert D. Calkins, of the Brookings Institution, has said:

"Thus far, no promising alternative to an increased reliance on public institutions and public support has appeared as a means of dealing with the expanding demand for education. The trend may be checked, but there is nothing in sight to reverse it. . . .

"Many weak private institutions may have to face a choice between insolvency, mediocrity, or qualifying as public institutions. But enlarged opportunities for many private and public institutions will exist, often through cooperation. . . . By pooling resources, all may be strengthened. . . . In view of the recent support the liberal arts colleges have elicited, the more enterprising ones, at least, have an undisputed role for future service."

18.9 per cent from Washington

PRIVATE INSTITUTIONS:
19.1% of their income
comes from Washington.

PUBLIC INSTITUTIONS:
18.6% of their income
comes from Washington.

I SEEM TO SPEND half my life on the jets between here and Washington," said an official of a private university on the West Coast, not long ago.

"We've decided to man a Washington office, full time," said the spokesman for a state university, a few miles away.

For one in 20 U.S. institutions of higher education, the federal government in recent years has become one of the biggest facts of financial life. For some it is *the* biggest. "The not-so-jolly long-green giant," one man calls it.

Washington is no newcomer to the campus scene. The difference, today, is one of scale. Currently the federal government spends between \$1 billion and \$2 billion a year at colleges and universities. So vast are the expenditures, and so diverse are the government channels through which they flow to the campuses, that a precise figure is impossible to come by. The U.S. Office of Education's latest estimate, covering fiscal 1962, is that Washington was the source of \$1.389 billion—or nearly 19 per cent—of higher education's total current-fund income.

"It may readily be seen," said Congresswoman Edith Green of Oregon, in a report last year to the House Committee on Education and Labor, "that the question is not *whether* there shall be federal aid to education."

Federal aid exists. It is big and is growing.

THE word *aid*, however, is misleading. Most of the federal government's expenditures in higher education—more than four and a half times as much as for all other purposes combined—are for research that the government needs. Thus, in a sense, the government is the purchaser of a commodity; the universities, like any other producer with whom the government does business, supply that commodity. The relationship is one of *quid pro quo*.

Congresswoman Green is quick to acknowledge this fact:

"What has not been . . . clear is the dependency of the federal government on the educational system. The government relies upon the universities to do those things which cannot be done by government personnel in government facilities.

"It turns to the universities to conduct basic research in the fields of agriculture, defense, medicine, public health, and the conquest of space, and even for managing and staffing of many governmental research laboratories.

"It relies on university faculty to judge the merits of proposed research.

"It turns to them for the management and direction of its foreign aid programs in underdeveloped areas of the world.

"It relies on them for training, in every conceivable field, of government personnel—both military and civilian."

THE FULL RANGE of federal-government relationships with U.S. higher education can only be suggested in the scope of this report. Here are some examples:

Land-grant colleges had their origins in the Morrill Land Grant College Act of 1862, when the federal government granted public lands to the states for the support of colleges "to teach such branches of learning as are related to agriculture and the mechanic arts," but not excluding science and classics. Today there are 68 such institutions. In fiscal 1962, the federal government distributed \$10.7 million in land-grant funds.

The armed forces operate officers training programs in the colleges and universities—their largest source of junior officers.

Student loans, under the National Defense Education Act, are the major form of federal assistance to undergraduate students. They are administered by 1,534 participating colleges and universities, which select recipients on the basis of need and collect the loan repayments. In fiscal 1962, more than 170,000 undergraduates and nearly 15,000 graduate students borrowed \$90 million in this way.

"The success of the federal loan program," says the president of a college for women, "is one of the most significant indexes of the important place the government has in financing private as well as public educational institutions. The women's colleges, by the way, used to scoff at the loan program. 'Who would marry a girl with a debt?' people asked. 'A girl's dowry shouldn't be a mortgage,' they said. But now more than 25 per cent of our girls have government loans, and they don't seem at all perturbed."

Fellowship grants to graduate students, mostly for advanced work in science or engineering, supported more than 35,000 persons in fiscal 1962. Cost to the government: nearly \$104 million. In addition, around 20,000 graduate students served as paid assistants on government-sponsored university research projects.

Dormitory loans through the college housing program of the Housing and Home Finance Agency have played a major role in enabling colleges and universities to build enough dormitories, dining halls, student unions, and health facilities for their burgeoning enrollments. Between 1951 and 1961, loans totaling more than \$1.5 billion were approved. Informed observers believe this program finances from 35 to 45 per cent of the total current construction of such facilities.

Grants for research facilities and equipment totaled \$98.5 million in fiscal 1962, the great bulk of which went to universities conducting scientific research. The National Science Foundation, the National Institutes of Health, the National Aeronautics and Space Administration, and the Atomic Energy Commission are the principal sources of such grants. A Department of Defense program enables institutions to build facilities and write off the cost.

To help finance new classrooms, libraries, and laboratories, Congress last year passed a \$1.195 billion college aid program and, said President

Can federal dollars
properly be called
federal "aid"?

FEDERAL FUNDS continued

Johns Hopkins U.	Northwestern U.
U. of Texas	Brown U.
	U. of Maryland

Johnson, thus was "on its way to doing more for education than any since the land-grant college bill was passed 100 years ago."

Support for medical education through loans to students and funds for construction was authorized by Congress last fall, when it passed a \$236 million program.

To strengthen the curriculum in various ways, federal agencies spent approximately \$9.2 million in fiscal 1962. Samples: A \$2 million National Science Foundation program to improve the content of science courses; a \$2 million Office of Education program to help colleges and universities develop, on a matching-fund basis, language and area-study centers; a \$2 million Public Health Service program to expand, create, and improve graduate work in public health.

Support for international programs involving U.S. colleges and universities came from several federal sources. Examples: Funds spent by the Peace Corps for training and research totaled more than \$7 million. The Agency for International Development employed some 70 institutions to administer its projects overseas, at a cost of about \$26 million. The State Department paid nearly \$6 million to support more than 2,500 foreign students on U.S. campuses, and an additional \$1.5 million to support more than 700 foreign professors.

BUT the greatest federal influence, on many U.S. campuses, comes through the government's expenditures for research.

As one would expect, most of such expenditures are made at universities, rather than at colleges (which, with some exceptions, conduct little research).

In the 1963 Godkin Lectures at Harvard, the University of California's President Clark Kerr called the federal government's support of research, starting in World War II, one of the "two great impacts [which], beyond all other forces, have molded the modern American university system and made it distinctive." (The other great impact: the land-grant college movement.)

At the institutions where they are concentrated, federal research funds have had marked effects. A self-study by Harvard, for example, revealed that *90 per cent* of the research expenditures in the university's physics department were paid for by the federal government; *67 per cent* in the chemistry department; and *95 per cent* in the division of engineering and applied physics.

IS THIS government-dollar dominance in many universities' research budgets a healthy development?

After analyzing the role of the federal government on their campuses, a group of universities reporting to the Carnegie Foundation for the Advancement of Teaching agreed that "the effects [of government expenditures for campus-based research projects] have, on balance, been salutary."

Said the report of one institution:

"The opportunity to make expenditures of this size has permitted a

research effort far superior to anything that could have been done without recourse to government sponsors. . . .

"Any university that declined to participate in the growth of sponsored research would have had to pay a high price in terms of the quality of its faculty in the science and engineering areas. . . ."

However, the university-government relationship is not without its irritations.

One of the most irksome, say many institutions, is the government's failure to reimburse them fully for the "indirect costs" they incur in connection with federally sponsored research—costs of administration, of libraries, of operating and maintaining their physical plant. If the government fails to cover such costs, the universities must—often by drawing upon funds that might otherwise be spent in strengthening areas that are not favored with large amounts of federal support, *e.g.*, the humanities.

Some see another problem: faculty members may be attracted to certain research areas simply because federal money is plentiful there. "This . . . may tend to channel their efforts away from other important research and . . . from their teaching and public-service responsibilities," one university study said.

The government's emphasis upon science, health, and engineering, some persons believe, is another drawback to the federal research expenditures. "Between departments, a form of imbalance may result," said a recent critique. "The science departments and their research may grow and prosper. The departments of the humanities and social sciences may continue, at best, to maintain their *status quo*."

"There needs to be a National Science Foundation for the humanities," says the chief academic officer of a Southern university which gets approximately 20 per cent of its annual budget from federal grants.

"Certainly government research programs create imbalances within departments and between departments," said the spokesman for a leading Catholic institution, "but so do many other influences at work within a university. . . . Imbalances must be lived with and made the most of, if a level of uniform mediocrity is not to prevail."

THE CONCENTRATION of federal funds in a few institutions—usually the institutions which already are financially and educationally strong—makes sense from the standpoint of the *quid pro quo* philosophy that motivates the expenditure of most government funds. The strong research-oriented universities, obviously, can deliver the commodity the government wants.

But, consequently, as a recent Carnegie report noted, "federal support is, for many colleges and universities, not yet a decisive or even a highly influential fact of academic life."

Why, some persons ask, should not the government conduct equally well-financed programs in order to improve those colleges and universities which are *not* strong—and thus raise the quality of U.S. higher education as a whole?

This question is certain to be warmly debated in years to come. Coupled with philosophical support or opposition will be this pressing practical question: can private money, together with state and local government funds, solve higher education's financial problems, without resort to Washington? Next fall, when the great, long-predicted "tidal wave" of students at last reaches the nation's campuses, the time of testing will begin.

6.4 per cent from Gifts and Grants

PRIVATE INSTITUTIONS:
11.6% of their income
comes from gifts and grants.

PUBLIC INSTITUTIONS:
2.3% of their income
comes from gifts and grants.

AS A SOURCE of income for U.S. higher education, private gifts and grants are a comparatively small slice on the pie charts: 11.6% for the private colleges and universities, only 2.3% for public.

But, to both types of institution, private gifts and grants have an importance far greater than these percentages suggest.

"For us," says a representative of a public university in the Midwest, "private funds mean the difference between the adequate and the excellent. The university needs private funds to serve purposes for which state funds cannot be used: scholarships, fellowships, student loans, the purchase of rare books and art objects, research seed grants, experimental programs."

"Because the state provides basic needs," says another public-university man, "every gift dollar can be used to provide for a margin of excellence."

Says the spokesman for a private liberal arts college: "We must seek gifts and grants as we have never sought them before. They are our one hope of keeping educational quality up, tuition rates down, and the student body democratic. I'll even go so far as to say they are our main hope of keeping the college, as we know it, alive."

FROM 1954-55 through 1960-61, the independent Council for Financial Aid to Education has made a biennial survey of the country's colleges and universities, to learn how much private aid they received. In four surveys, the institutions answering the council's questionnaires reported they had received more than \$2.4 billion in voluntary gifts.

Major private universities received \$1,046 million.

Private coeducational colleges received \$628 million.

State universities received nearly \$320 million.

Professional schools received \$171 million.

Private women's colleges received \$126 million.

Private men's colleges received \$117 million.

Junior colleges received \$31 million.

Municipal universities received nearly \$16 million.

Over the years covered by the CFAE's surveys, these increases took place:

Gifts to the private universities went up 95.6%.

Gifts to private coed colleges went up 82%.

Gifts to state universities went up 184%.

Gifts to professional schools went up 134%.

Where did the money come from? Gifts and grants reported to the council came from these sources:

General welfare foundations gave \$653 million.

Non-alumni donors gave \$539.7 million.

Alumni and alumnae gave \$496 million.

Business corporations gave \$345.8 million.

Religious denominations gave \$216 million.

Non-alumni, non-church groups gave \$139 million.

Other sources gave \$66.6 million.

All seven sources increased their contributions over the period.

BUT THE RECORDS of past years are only preludes to the voluntary giving of the future, experts feel.

Dr. John A. Pollard, who conducts the surveys of the Council for Financial Aid to Education, estimates conservatively that higher education will require \$9 billion per year by 1969-70, for educational and general expenditures, endowment, and plant expansion. This would be 1.3 per cent of an expected \$700 billion Gross National Product.

Two billion dollars, Dr. Pollard believes, must come in the form of private gifts and grants. Highlights of his projections:

Business corporations will increase their contributions to higher education at a rate of 16.25 per cent a year. Their 1969-70 total: \$508 million.

Foundations will increase their contributions at a rate of 14.5 per cent a year. Their 1969-70 total: \$520.7 million.

Alumni will increase their contributions at a rate of 14.5 per cent a year. Their 1969-70 total: \$591 million.

Non-alumni individuals will increase their contributions at a rate of 12.6 per cent a year. Their 1969-70 total: \$524.6 million.

Religious denominations will increase their contributions at a rate of 12.7 per cent. Their 1969-70 total: \$215.6 million.

Non-alumni, non-church groups and other sources will increase their contributions at rates of 4 per cent and 1 per cent, respectively. Their 1969-70 total: \$62 million.

"I think we must seriously question whether these estimates are realistic," said a business man, in response to Dr. Pollard's estimate of 1969-70 gifts by corporations. "Corporate funds are not a bottomless pit; the support the corporations give to education is, after all, one of the costs of doing business. . . . It may become more difficult to provide for such support, along with other foreseeable increased costs, in setting product prices. We cannot assume that all this money is going to be available simply because we want it to be. The more fruit you shake from the tree, the more difficult it becomes to find still more."

**Coming: a need
for \$9 billion
a year. Impossible?**

CONTINUED

But others are more optimistic. Says the CFAE:

"Fifteen years ago nobody could safely have predicted the level of voluntary support of higher education in 1962. Its climb has been spectacular. . . .

"So, on the record, it probably *is* safe to say that the potential of voluntary support of U.S. higher education has only been scratched. The people have developed a quenchless thirst for higher learning and, equally, the means and the will to support its institutions adequately."

ALUMNI AND ALUMNAE will have a critical role to play in determining whether the projections turn out to have been sound or unrealistic.

Of basic importance, of course, are their own gifts to their alma maters. The American Alumni Council, in its most recent year's compilation, reported that alumni support, as measured from the reports of 927 colleges and universities, had totaled \$196.7 million—a new record.

Lest this figure cause alumni and alumnae to engage in unrestrained self-congratulations, however, let them consider these words from one of the country's veteran (and most outspoken) alumni secretaries:

"Of shocking concern is the lack of interest of most of the alumni. . . . The country over, only about one-fifth on the average pay dues to their alumni associations; only one-fourth on the average contribute to their alumni funds. There are, of course, heartwarming instances where participation reaches 70 and 80 per cent, but they are rare. . . ."

Commenting on these remarks, a fund-raising consultant wrote:

"The fact that about three-fourths of college and university alumni do not contribute anything at all to their alma maters seems to be a strong indication that they lack sufficient feeling of responsibility to support these institutions. There was a day when it could be argued that this support was not forthcoming because the common man simply did not have funds to contribute to universities. While this argument is undoubtedly used today, it carries a rather hollow ring in a nation owning nearly two cars for every family and so many pleasure boats that there is hardly space left for them on available water."

Alumni support has an importance even beyond the dollars that it yields to higher education. More than 220 business corporations will match their employees' contributions. And alumni support—particularly the percentage of alumni who make gifts—is frequently used by other prospective donors as a guide to how much *they* should give.

Most important, alumni and alumnae wear many hats. They are individual citizens, corporate leaders, voters, taxpayers, legislators, union members, church leaders. In every role, they have an effect on college and university destinies. Hence it is alumni and alumnae, more than any other group, who will determine whether the financial health of U.S. higher education will be good or bad in years to come.

What will the verdict be? No reader can escape the responsibility of rendering it.

The report on this and the preceding 15 pages is the product of a cooperative endeavor in which scores of schools, colleges, and universities are taking part. It was prepared under the direction of the group listed below, who form EDITORIAL PROJECTS FOR EDUCATION, a non-profit organization associated with the American Alumni Council. (The editors, of course, speak for themselves and not for their institutions.) Copyright © 1964 by Editorial Projects for Education, Inc. NEWS OF THE CLASSES

Class Secretaries

Gay 90's—DR. FRED P. ENSMINGER, Box 1585 Sanford, Fla.

00-01-02-03—DR. GEORGE W. GLEASON, 618 Glenarden Dr., Winter Park, Fla.

04—HELEN STEINMETZ, The White Sands of LaJolla, LaJolla, Calif.

05—ADA BUMBY YOTHERS (Mrs. W. W.) 457 Boone St., Orlando, Fla.

06-07—DONALD A. CHENEY, 3024 Lake Shore Dr., Orlando, Fla.

08-09—BARBARA FLYE CHUBB (Mrs. Leland M.), 350 N. Knowles, Winter Park, Fla.

10—MARGUERITE V. DOGGETT, 119-20 Union Turnpike, Kew Gardens 15, L. I., N. Y.

11-12—MARY L. BRANHAM, 126 Lucerne Circle, Orlando, Fla.

13—CARYL TWITCHELL, 1259 Essex Rd., Winter Park, Fla.

14-15-16—J. SHERWOOD FOLEY, Box 1351, Winter Park, Fla.

17—MARGUERITE ENLOW BARZE (Mrs. Roland D.), Box 5548, Daytona Beach, Fla.

18—ANNE C. STONE, 1802 Stonehurst Rd., Winter Park, Fla.

19—DR. FLORENCE C. STONE, 10 Montague Terr., Apt. 3-C, Brooklyn 1, N. Y.

20-21—T. DeWITT TAYLOR, Box 356, Pierson, Fla.

22—RUTH WALDRON STONE (Mrs. Alvord L.), Route 6, Box 643, Tampa 10, Fla.

23—RAY W. GREENE, 242 Chase Ave., Winter Park, Fla.

24—HELEN WATERHOUSE, Box 24, Maitland, Fla.

25—DOROTHY PRATT, 812 Mount Vernon, Orlando, Fla.

26—CATHERINE YOUNG, Box 341, Altamonte Springs, Fla.

27—KATHARINE LEWIS LEHMAN (Mrs. Rodman), 419 Interlachen Ave., Winter Park, Fla.

28—GERTRUDE WARD CAMPBELL (Mrs. Harry) 201 Genius Dr., Winter Park, Fla.

29—NANCY K. BROWN, 945 19th St., Santa Monica, Calif.

30—CLARA ADOLFS, Rollins College, Winter Park, Fla.

31—JEWELL LEWTER, 1009 N. Bumby Ave., Orlando, Fla.

32—GWEN BARTHOLOMEW PATTERSON (Mrs. Terry), 1336 College Point, Winter Park, Fla.

33—THELMA VAN BUSKIRK DOUGLASS (Mrs. Henry), 2466 Fairway Ave., S., St. Petersburg, Fla.

34—COL. BURLEIGH DRUMMOND, 548 Edwin, Pomona, Calif.

35—BLANCHE FISHBACK GALEY (Mrs. John T.), Route 6, Somerset, Penna.

36—HELEN JACKSON HADLEY (Mrs. Paul A.), R. R. 1, Box 1340, Glencoe, Mo.

37—GRACE TERRY MARSHALL (Mrs. Nelson), Locust Drive, Kingston, R. I.

38—MARITA STEUVE STONE (Mrs. Wendell), Rollins College, Winter Park, Fla.

39—FRANCES DANIEL DIVINE (Mrs. John H. III), 4620 Conway Gardens Rd., Orlando, Fla.

40—SUE TERRY BOSWELL, 3601 San Pedro, Tampa 9, Fla.

41—NANCY LOCKE JOHNSON (Mrs. Joseph), 1210 Alberta Dr., Winter Park, Fla.

42—ELIZABETH KNOWLTON SHORE (Mrs. Jack L.), 119 Park View Circle, College Park, Ga.

43—SHIRLEY BOWSTEAD EVANS (Mrs. Charles H.), 6409 Jewell Circle, Belle Isle, Orlando, Fla.

44—MARJORIE COFFIN MATHEWS (Mrs. Philip), 106 Juan Bautista Circle, San Francisco, Calif. 91432.

45—EDITH BENNETT CONFHEHR (Mrs. W. D.), 9904 Parkwood Dr., Bethesda 14, Maryland.

46—HALLIEJEANNE CHALKER, American Embassy, APO 794, New York, N. Y.

47—AINSLIE EMBRY, 2604 Valetta Rd., Louisville 5, Ky.

48—LEE BONGART HILKENE (Mrs. Bruce L.), 851 Westchester Way, Birmingham, Mich.

49—PAT GERMAN WEST (Mrs. Wm. B., Jr.), 6204 Newburn Dr., Washington 16, D. C.

50—CAROL POSTEN MILLER (Mrs. Wm. M.), 4249 Wickford Rd., Baltimore 10, Maryland.

51—ANNE TURLEY WARINNER (Mrs. David C.), 3460 Principio Ave., Cincinnati 26, Ohio.

52—DIANE VIGEANT MATTHEWS (Mrs. Daniel P.), 5260 Brantford Rd., Memphis 17, Tenn.

53—KATHLEEN McDONNELL GRIFFITH (Mrs. Richard D.), 2584 McClintock Rd., Pontiac, Mich.

54—MARILYN SHINTON TOWNSEND (Mrs. Robert L., Jr.), 4085 Benedict Canyon Dr., Sherman Oaks, Calif.

55—JANE LAVERTY HENRY (Mrs. John T., Jr.), Merion Court Apts., 118 Montgomery Ave., Bala Cynwyd, Pa.

56—PHYLLIS LOCKWOOD HULL (Mrs. Preston C., Jr.), 15910 Redington Dr., Redington Beach, Fla.

57—BILLY JO WHIPPLE GRAVES (Mrs. J. Anderson, Jr.), 118 Valle Verde Ct., Danville, Calif.

58—CORNELIA LADD McINTOSH (Mrs. James H., Jr.), 1837 Tune Ave., Florence, Ala.

59—ANNE WILKINSON BENEDICT (Mrs. Peter), Rt. 9, Box 799, Tucson, Arizona.

60—BETTY VAN MATER HOADLEY (Mrs. A. Bruce), 898 Riley Dr., Albany 6, Calif. 94706

61—JANE GOODNOW COOPER (Mrs. James E.), 1550 Hibiscus Ave., Winter Park, Fla.

62—SUSAN B. HAZARD, 10 Peterson Pl., Wilmington, Ohio.

63—JERRY HUNTER, 601 Country Road B, St. Paul, Minn.

KENNETH PELOQUIN '54, newly-elected Second Vice President of the Alumni Association and chairman of the publications committee, presided at a special workshop for Class Secretaries held Friday afternoon in the conference room of the Chapel.

GAY 90's

MARION (COAN) BARNES (Mrs. Henry) writes that she is "just drifting" but that she is still interested in Rollins and wishes for it the best.

1904

CLARA (BURLEIGH) BIXLER (Mrs. James W.) had a serious auto accident in August and is still recuperating. During a trip to the Caribbean and Florida last spring she stopped by Winter Park, which she says is lovelier than ever. PORTIA MANSFIELD says Perry-Mansfield School of the Theatre and Dance is now a college, since they are giving it, during the next 3 years, to Stephens College but are continuing as directors.

She sent a set of most interesting brochures about the school, which is located in Carmel, California.

1906

REV. GUY H. FRAZER writes that he was 80 on March 5 and at the age of 78 made a round trip alone by auto to Key West, a 4030 mile trip, for the sole purpose of dedicating a bronze plaque in memory of his father who in 1892 was founder and first pastor of the First Congregational Church in Key West. Rev. Frazer was first winner of the Roman Medal for oratory in 1903 at Rollins. He was also No. 7 on the winning shell crew in an exhibition race of two Rollins crews at the Tampa Fair and won the prize in the Senior class reading contest in the Episcopal Theological Seminary in Cambridge, Mass. in 1909. He was ordained in 1900 in Cuba and has never missed a Sunday in almost 53 years.

IRMA (LEWTER) ROGERS is National Defense Chairman of the Orlando DAR and was a delegate to the National Convention in Washington in April. She is also historian of the UDC in Orlando.

1910

WINIFRED (WOOD) ESTEY (Mrs. Clarence H.) is president of the Mt. Dora Historical Society and has written a history of the Lake County Chautauqua in the early days. She is in the process of writing about Lighthouses of Florida.

1912

MARJORIE (BLACKMAN) WALLACE (Mrs. G. O.) recently presented to Rollins an extremely rare Bible which was presented to President William Fremont Blackman by his father, at the age of seven, as a reward for having read the entire Testament.

1913

A story in the Maui, Hawaii News tells of an award to MABEL DANIELS by the Japanese government. Through the efforts of the President of Tokyo's Obirin College where she was a teacher of English and the Bible for 11 years, Miss Daniels received a decoration based on service to the Empire in the field of education. A second decoration was presented to her in recognition of the "bridge of friendship she has created between the U.S. and Japan by staying in Japan during and after World War II years." Miss Daniels gave 30 years of service to Japan. Her sister (RUTH x1913) was with her the last 7 years

and started a church and kindergarten which received favorable notice in the application for the National decoration.

1914

PAULINE (AYRES) BLANCHARD (Mrs. Raymond W.) will be moving to Orlando from Maxville, Fla. in June.

MARY (CORRE) FOSTER (Mrs. Frank) is retired after 39 years as Supervisor Counseling in Cincinnati Public Schools. Last year she served as part-time consultant to U. S. Dept. of Labor on school-related problems, and traveled in Yucatan, Greece and Israel.

FLORENCE M. BETTS has been retired from the Erie, Pa. public schools for several years, but remains as busy as ever.

KATHLEEN (HILL) BUSER (Mrs. G. C.) of Maitland, Fla. joined PAULINE BLANCHARD and FLORENCE BETTS for their 50th Reunion in April, making a 100% representation of the graduates of the class of '14.

1915

ALICE (JACOBS) PULESTON is managing a small apartment house at Daytona Beach, Fla.

1916

KATHERINE (SMITH) PALLESEN was a recent visitor to the Alumni office and to several of her local classmates. She is very enthusiastic about the present Rollins.

GERALDINE (CLARK) HARRIS (Mrs. Elmer K.) attended her first reunion since graduation from Rollins. She has recently contributed a valuable book to Mills Memorial Library in memory of her husband, who was also an Alumnus of Rollins.

1917

MARGUERITE (ENLOW) BARZE (Mrs. Roland D.) writes that her husband ROLAND has been recovering from a heart attack suffered on Feb. 3 but that he is doing as well as can be expected.

1918

SARA (YANCEY) BELKNAP published two works during 1963—Guide to Performing Arts for 1962 and Guide to Dance Periodicals, Vol. 10. She is Director of Dance and Art Archives at the University of Florida.

STRANGE REUNION

College reunions are usually not front page news, but this two-man reunion put Rollins on the front page of practically every daily newspaper in the country. MILES "CHAPPY" MCDONNELL '51 and PETER SHOLLEY '50 made a pact at Rollins in 1949 that they would meet at noon on June 4, 1964 at the corner of Hollywood and Vine. They met. Only MCDONNELL appeared disguised as a news vendor and it took SHOLLEY some moments before he recognized his old fraternity brother. MCDONNELL, Winter Park attorney, Air Force pilot and Alumni Board member, and SHOLLEY, vice president of Keystone Custodian Funds in Boston, went on to have a gay reunion.

1919

DR. B. CHANDLER SHAW is still teaching at Bethany College in W. Va. He and his wife and two daughters enjoyed a "Capitals of Europe" tour last summer. FLORENCE (SHERMAN) HILTON (Mrs. Walter) notified us that her husband, Rev. Hilton, died last May in Avon Park, Fla. Florence is now living with her daughter. Add: 508 W. Alden, Valdosta, Ga.

VIRGA (WEST) JONES (Mrs. Neil S.) is still a public school librarian in Milan, Ohio and has been appointed a member of the Jr. High Schools Committee of the Ohio Assn. of School Libraries. She has three grandchildren.

WINIFRED (HANCHETT) FLOOD (Mrs. Paul T.) and her husband submitted poems in a contest judged by the editors of Doubleday. She had one cited and her husband had two cited. In the summer "Tiny" is librarian in a private club in the Catskills. She is also working on a new book.

1920

T. DEWITT TAYLOR has reason to be proud of his younger son who is a research engineer with NASA in Maryland and taking graduate courses at George Washington University. Tom was top student in grades at the end of his first semester.

1924

MARGARET (BELL) QUINBY (Mrs. E. J.) enjoys her 3-manual 1000-pipe organ, her concert grand piano, a concert harp and a harpsichord at her home in Summit, N. J. Her husband says he is grateful to Rollins for having provided such a fine start to her musical career.

FRANCES (BELL) MILLER (Mrs. Lee) says she misses the real Florida sunshine and is tired of the long cold winters in Connecticut. She sends regards to all her classmates.

1929

VIRGINIA MITCHELL is again teaching English at Miami Edison Senior High School after a Sabbatical—two wonderful trips by car through South and Eastern U. S. and a long visit in New York City.

VIRGINIA (LAWRENCE) HOLSCLAW (Mrs. Ralph) has been teaching 4th grade in Mt. Dora, Fla. for over two years. Virginia is active in the Business and Professional Woman's Club.

LOIS (BARTLETT) TRACY (Mrs. Harry H.) and husband, "BUS" ('31) spent last summer in Spain, Greece and Egypt.

She is exhibiting in the Tampa Fair this year. BUS is managing the Inn at Wise, Virginia and LOIS is teaching at the Univ. of Virginia.

ANN (BOWER) RACE (Mrs. Austin T.) announces the coming marriage of her granddaughter in June. The "Race clan" will be motoring up for the wedding. "Mother" Race is "loaded with club work."

ANN (LUPTON) STEPHENS has moved from Orlando to St. Petersburg but still spends weekends in Orlando where she owns a house. She works in two elementary school libraries. Her son is in the Philippines in the Army.

DOROTHY (WILSON) STRUNK (Mrs. D. W.) lives in Denver. Her son is still a bachelor and lives with her.

LING NYI (VEE) WANG (Mrs. Shou Chin) has three married children and lives in Watertown, Mass. Her husband is a physicist.

1930

Information has just come to me that Bob James visited campus in September 1962! He is in the Resources Transportation Division of the Agency for International Development for the Department of State. Sounds interesting. He lives in Falls Church, Virginia.

It was a joy to see Bob Boney not so long ago. His son has finished college and is making the Air Force his career, being in Alaska now. Daughter, Bernice, is a college sophomore now.

Flora Furen Carmichael was in Orlando for a short time but was so busy taking care of and teaching for her daughter that she did not get on campus.

Thanks for the very beautiful Christmas card, Harrison Cobb. But give us some news.

Our sympathy to Winifred Nichols Morrison whose father passed away several months ago. She has had a busy time getting her daughter married off, and then managing the wedding of another girl; also helping her mother move from Oklahoma to live with her.

Please note, all you New York and Washington, D. C. Classmates—Gottfried Dinzl expects to come to the U. S. in the fall and wants to see as many of you as possible. Will let you know time and details later. He will be representing Austria with an International Wool Study Group. The Dinzls have a baby daughter, Claudia, born last October. Louise Howes Duckworth and Manly are in Europe now and will attend some of the music events in Vienna this spring. Saw Martha Schanck Mayo recently at the A.A.U.W. tea for Rollins women. Charlotte Stienhans teaches one class

in the morning in our Education Department, and one in the evening for the MAT course.

Gerry Miller has sold his Maitland home and is living in Orlando again, at 910 Alameda.

It was great to see Mazzie Wilson and Asa Jennings at the Reunion picnic. Mazzie is still Dean of Women at Concord College at Athens, W. Va. Hope Asa writes a book someday about his experiences in the Near East where he continues to visit, or rather work.

Charmaine Berquist Clulow was also here for the Reunion. She will be in England and at Ascot at the same time the Royal Family is!

FREDERICK CHASE has a new address—P. O. Box 246, Franklin, North Carolina.

RUTH ELLSWORTH is working for the fifth year on the Teacher Education Experimental Project at Wayne State University.

LOUISE (HALL) MOORE (Mrs. Franklin) is taking classes in portrait and oil painting at the Boston Museum of Fine Arts. She and her husband stopped at Rollins during the holidays but the office was closed and she says she was sorry to miss seeing all of us.

Ed. Note: CLARA ADOLFS received the Sullivan Medallion at Convocation during Founders Week, February 24, 1964.

1932

BETTY (RATHBONE) SCUDDER (Mrs. Steven) and her husband are "pleased that Rollins has invited their daughter, Andrea, to join the freshman class this fall." She will graduate from Walnut Hill School in June.

1933

EMILY (BROOKWALTER) LEVY (Mrs. James M.) and her husband spent several weeks in Israel and Italy in 1963. Emily is still doing lots of hand-weaving and doing volunteer teaching in a home for the aged.

JEAN (FULLINGTON) SHEPHERD (Mrs. David) and family recently moved to New Port Richey, Fla. where her husband is pastor of the Congregational Church. Her daughter, Jean, is a senior at Rollins.

JANE (WELHOFF) THOMPSON (Mrs. Holland) was recently elected President of the Winter Park Memorial Hospital Auxiliary succeeding BECKY (COLEMAN) WILSON (Mrs. O. C.) ('34).

BETTY (LYNCH) DANNER (Mrs. H. Walter) is teaching elementary school in Princeton, N. J. Daughter, Betsey is a freshman at Upsala College and daughter Pamela a sophomore in high school.

1934

MONA (GRAESSLE) WALKER (Mrs. Wm. W.) received an honorary life membership in the Garden Club of Jacksonville, Florida.

EDWIN BUTTNER has promised to send pictures of MAURICE DREICER, RIP PARSONS, ARIEL and SLOAT HODGSON and HARRIET HILLER CROOK if they all can get together during the summer.

BARBARA (DONALDSON) WILLIAMS writes that her daughter, Jennifer, graduated from Pembroke College last year and her son, Jay Keith, is attending the Shapley School in New Canaan, Conn. VIVIAN (SKINNER) ROGERS (Mrs. E. R., Jr.) was elected to the State Board of the League of Women Voters of Florida in April.

RALSTON PICKERING is still in the fuel business in Salem, Mass. His daughter was married in November and his son is a Senior at Stetson and was married last August.

KINSMAN and ALICE (BUTLER '33) WRIGHT have moved to Ventura, Calif. He is with Pacific Standard Life Insurance Co. Son Ted graduates from Boston Univ. Medical School in June and son John is a Jr. at Colgate. Son Robert, 12, is still at home.

BOB ROBERTSON recently accepted the presidency of the Country Club of Orlando.

FRED NEWTON's daughter Jill graduates from Centenary College for Women in Hackettstown, N. J. this year.

GREG WILLIAMS stopped by the Alumni House with his wife recently. He is still in real estate and life insurance in Huntsville, Ala. Son Roger is a 1st Lt. in the Army Reserve and doing research on the Univ. of Ga. staff.

SEV BOURNE is a grandfather. He and wife, Jean divide their time between homes in Eleutiera in the Bahamas and Pompano Beach. Sev retired in 1956 but says he is working harder than ever.

JIM GOWDY is recovering from a serious accident. He plans to become active in real estate soon. Son Greig is a practicing attorney in Los Angeles and daughter Gayle recently married. Youngest son, Grant, is about to enter High School. Jim became a grandfather in September.

MARY BUTLER LONGEST operates a small Natural Organic Vitamin business. MIRIAM (BARNHILL) KEW (Mrs. Ted) lives in Winter Park with her husband. Son Ted is with the Dept. of Agriculture in Winter Haven.

VICKY (BEDFORD) BETTS (Mrs. Charles, Jr.) and husband both had books published in March 1963—Vicky is also a free-lance Art Consultant. Daughter Susan is a Freshman at Goucher.

GIFFORD WARNER is still addicted to boats and their salvage. He lives, with his wife, two girls and a boy in Essex, Conn. and operates excursions on the Conn. River and hopes to offer services in the America's Cup Race this year and to the World's Fair.

LAURA (FISHER) WARFIELD is serving with the 18th General Assembly of the United States Mission to the U.N. and is with the Agency for International Development of the State Dept.

LOUISE (COOGLER) BOATWRIGHT (Mrs. James, Sr.) is doing interior decorating work in offices, homes, churches, etc. She studied interior decorating after leaving Rollins. She lives in La Grange, Ga.

TOMMY THOMPSON won a national sales contest recently, with one prize a trip for the family to Mexico. Daughter Ginny married last June and son Buddy is still at home.

ALLEN SPITZER is now Prof. of Anthropology and Director of Anthropological Research at St. Louis Univ. He recently returned from a year as Fulbright Prof. at the Univ. of Queensland, Brisbane, Australia and a short period of research in Hong Kong. He has retired from the Army as a Captain.

EMMART LACROSSE has an older daughter who edits papers for the American Heart Society at Harvard Medical School and a younger daughter in High School.

HANNABELLE (WALKER) VANCIL (Mrs. Harold T.) was taken back to 1933 when, on a recent visit to Rollins she saw Fleet Peebles standing on the dock. Daughter Judy is married; son Rich married recently and is an ensign in the Navy; youngest daughter is still in High School. Hannabelle recently joined the "grandmother" club. She has a gift store in "Old Abilene" (Kansas) near the Eisenhower Center.

BECKY (COLEMAN) WILSON (Mrs. Osburn C.) is without boys for the first time in years. Two sons are in the Air Force and the two younger boys are at St. Albans in D. C. and St. Andrews in Boca Raton.

DUKE WELLINGTON is Prof. of Counselor Education at Penn State and represented all of education on the 1963 Nobel Memorial Committee. He and wife (MIRIAM SPRAGUE '32) are grandparents and have one son in oceanographic physics research and another at Columbia Law School. They were unable to make Reunion, as Duke was Director of a U.S.O.E. Institute for training counselors at that time.

Dr. JOHN T. CUDMORE has been in San Diego since 1956 practicing Oncology (the diagnosis and treatment of cancer). He sends best regards to all.

JOSEPHINE (VAN ZANDT) EVANS (Mrs. Junius A.) is working as office aide for her husband, a dermatologist. They have three children (21, 16, 12) and she says "aside from missile silos blowing up around Roswell now and then, life goes on at an even, but interesting pace."

DR. GEORGE EDWARDS has just been installed as President of the Florida General Practitioners.

BETTY (CHILDS) TONE (Mrs. FREDERICK F.) is teaching English at Kendall Central School in Holley, N. Y. and will receive her Masters degree in Arts and Education in June from Univ. of Rochester. BETTY and FREDERICK's daughter, Mary Ann, is a Junior at Rollins and was married on March 14, 1964 to DONALD R. NESBITT, Jr. ('63).

1935

BILL WOODHULL has three grandchildren (his daughter's children) and his son, Bill, Jr. is a senior at Park College, Parkville, Mo.

MAXEDA von HESSE is teaching Robert Kennedy, the Attorney General, to be a better public speaker and will be speech advisor in the Presidential campaign.

LEONARD ROTH is presently a member of the Armed Services Board of Contract Appeals in Washington and in February delivered a lecture at the Southeastern Seminar Bar Assn. at the Univ. of Ga.

1936

MARLEN (ELDREDGE) NEUMANN (Mrs. Robert) has added another activity to her already over-crowded schedule. She is working with the Metropolitan Hearing Center, an organization that acts as a catalyst to get other groups, schools, and cities to help preserve hearing and give children hearing tests. Her older son, Ronald, is a sophomore in Univ. of Calif. at Riverside and younger son, Gregory is in the 6th grade.

VICTORIA PEIRCE has recently returned from a World Cruise and later worked on the same ship as social directress on their 42 day Mediterranean cruise.

ELEANORA (ROUSH) SMITH (Mrs. W. Quentin) is planning a trip to Europe this summer and will visit her sister, VIRGINIA D'ALBERT-LAKE '35 and also MIA and ANNIE RUTZ in Germany. ELEANORA's son was married in Dec., 1963, one daughter is a freshman at Chatham College and she has two more children at home.

WEDDINGS: BETTY TREVOR BUFFUM to Dr. Paul A. Fernbach, June 1963.

1937

LT. COL. MARJORIE SCHULTEN is chief of public relations of America's only and largest all-land National Missile Range at White Sands Missile Range, New Mexico which also includes the NASA Apollo program (man on the moon by 1970).

SALLY (HAMMOND) HONAN (Mrs. Wm. H.) is general assignment reporter on the N. Y. Post and has interviewed many musicians in this capacity. She is also doing publicity for the United World Federalists and the Greenwich Village Peace Center. Her husband, Bill is on leave of absence from the New Yorker to write a play.

1938

JACK RICH and wife, Marcia are having a great time studying ancient Greek and reading the "great books" at St. Johns College. Jack is counseling parents who are seeking educational opportunities for their children in schools abroad.

1939

Mr. and Mrs. OLIVER DAUGHERTY (JUNE MUTISPAUGH '41) say their daughter, Dee Dee, a freshman at Rollins, loves it as much as they do.

BILL WEBB writes that a vacation in April to Paris and Greece made it impossible for him to attend Reunion.

EUGENIA (CANNON) NIENABER (Mrs. Jewell) has three sons (23, 16 and 11). Her husband is still a pilot for P.A.A. Her oldest son just received his Masters degree at Univ. of Fla. in Electrical Engineering.

LEON STACKLER is a broker at Antilles Land Development, Inc. at St. Thomas, Virgin Islands. His daughter, Susan is a Senior at Chatham Hall in Virginia and son, Dean, is a sophomore at Asheville School, Asheville, N. C.

1940

Mr. and Mrs. WENDELL DAVIS' (ANNE ANTHONY '41) son, Wendy, Jr. is a Junior at Thayer Academy, Braintree, Mass., where Wendy, Sr. graduated and this January his father had the pleasure of administering the oath of enlistment in the Naval Reserve to him. Wendy, Sr. is a producer for Channel 4 Television, Boston and a Captain in the USNR.

SHERRY (GREGG) and DON OGILVIE recently donated Jack Murray's "Florida's Flaming Six-Guns" to the Mills Memorial Library. The novel is concerned with the bloody range wars of

the cattle frontier which soon after the turn of the century centered around Perry, county seat of Taylor County in North Florida.

CAROLYN (SANDLIN) FULLERTON (Mrs. Richard) is in Winston-Salem writing her thesis for an MFA in Theatre. Her son, Dick, is a freshman at Duke. Winston-Salem is to be the home of the new N. C. School for the Performing Arts and Carolyn says it was exciting to be a small part of the "campaign" for its location there.

1941

Mr. and Mrs. DONALD CRAM (JEAN TURNER) are still enjoying the skiing and surfing in California; they also do some traveling and are looking forward to seeing Japan in April. The new edition of Organic Chemistry now off the press proves that Don is really working hard.

Dr. RUDOLF TOCH continues to thrive on a mixture of private practice of pediatrics, teaching at Harvard and Mass. Gen. Hospital, plus holding assorted assignments with many civic organizations and the Unitarian-Universalist Assn. and being very active as a Lt. Col. in the Reserves. He says he has been too busy and contented to get married but is honorary uncle to many children.

Avon Books has just brought out a paperback reprint of JESS GREGG's popular novel, The Glory Circuit.

1942

SHIRLEY (BASSETT) and MATT ELY, JR. ('40) are extremely busy with Civic activities. MATT is chairman of his church development committee, Pres. of the Pelhamwood Assn., Chairman of a Boy Scout Troop and a Director of the Community Chest. 1962

PAULA (HOROWITZ) '63 and MATTHEW CARR are living near the Albert

Einstein Medical School where Matt is a sophomore. Paula works for the New York City Welfare Dept. as a social worker.

BILL HOUSTON has been in Germany since October. He was home in February due to the serious illness of his father, who is now much improved.

MIGUEL ALEGRE is assistant to the president of Inmobiliaria Grau—a real estate company—and assistant to the president of Alegre Cuellar and Quedo of which two companies his father is President.

ENRIQUE HUBER has been working for the last year and a half as Assistant to his father, who is President of Cal-O-Rex de C. V. and Calefactores S. A. They make water heaters, etc.

JEFF and JAY (TOURGEE) SELLON are leading a busy life in Victorville, Calif. They have a 3 month old daughter, Debbie. Jay writes that she met Dr. Suess! Jeff is in the Air Force.

ED BATH and his wife are living in Louisville, Kentucky where Ed is in University of Louisville Medical School.

After a year in Evanston, Ill. PATT and HAL ABBOTT have moved to Miami, Fla. where Hal is working in a Beach Hotel.

PATTY (BOYD) DE SIBOUR is living in San Diego while her husband completes his second year in the U. S. Navy. In July they will be moving back to Michigan.

MARY FRANCIS AMICK has been teaching French at Beckley College, Beckley, West Virginia. She has also been teaching French in Mt. Hope to children in the third to sixth grades.

JOAN (WATZEK) and WHIT CHASE and their two children are living in Windermere where Whit is working for his father in the citrus business.

DAVID TALLEY, recently discharged from the Navy, is presently in a managerial training program with Retail Credit Co. in Orlando.

JOHN JOHNSON is working at Cape Kennedy and working toward a Master's Degree in Mathematics at Brevard Engineering College.

WALT WIRTH is working as a commission salesman for the Aloe Medical Division of Brunswick Corporation in Jacksonville.

DAVE COOPER has bought into a business in Niantic, Connecticut and is living in New London, Conn. He plans to give guitar lessons as well as play the guitar in a coffee shop there. Any spare time he devotes to skiing and in the summer, to sailboat racing.

LT. PETE TENNY is stationed at Adair Air Force Base outside Corvallis, Oregon, where he is a "weapons controller." This involves sitting behind a radar scope

in a concrete block house — with no windows — and guiding jet interceptors against enemy bombers or ICBM's. He would love to see any Rollins students who might be up that way.

LEILA (BELVIN) NEIMANN and her husband are moving in April to Charlottesville, Va. where David will be with the University of Va. Food Service.

LLOYD ABBOTT reports that he and his family are to be transferred from Japan (which they enjoyed immensely) to Hickam AFB, Hawaii APO 953, June 1, 1964. They will welcome any visitors.

GLORIA PASTERNAK is living in Athens, Greece. In the evenings she works at a language school and during the day, she meets with friends she has made, makes new friends, plays tennis, and reads all the books she's been longing to read. All together she'll be in Athens four months.

DAN JACKSON and his wife Barbara (Dixon) are living in Jacksonville where Dan is stationed at Jacksonville Naval Air Station.

STAN JOZWIAK is working for North American Aviation, Columbus (Ohio) Division in Quality Engineering. He says he enjoys the snow, but misses Florida water sports.

MORT DUNNING and his wife Judy are living in Burlington, Connecticut. They are enjoying remodeling an old home.

HOPE HIGH is teaching third grade in Rockville, Maryland. She has applied with a branch of service for an overseas teaching position. This summer Hope plans to continue work on her MAT at Rollins.

VERNON BUTTRAM is living in Jacksonville, Florida where he is working on a research project for the State Department of Mental Health. He and his wife adopted a daughter, Lucille Marie, in July, 1963.

BARBARA (BATMAN) MaGIRL welcomes all Rollins students to her Bloomington, Illinois apartment. She is teaching kindergarten in a private school. Jamie is working in the family business—wholesaling furnaces.

DIANE (SCOTT) FRAZIER and husband Jerry are living in Winter Haven, Fla. where Jerry, she and seven months old Scott were transferred by the Firestone Co.

After one year of Law School, BOB BRICKEN, is now with the U. S. Army Intelligence Corps. He plans to travel, as a civilian, in Europe this summer, then return to Law School in the fall.

CHARLES COX is in Missile Maintenance Office of McCoy Air Force Base, Orlando. He has been working on his M.B.A. at Rollins night school.

COL. O'NEILL K. KANE plans to take

a year's leave of absence from the Department of Economics at Rollins in order to pursue his Ph.D. at the University of Florida. He hopes to return to Rollins in the fall of '65.

MARY (GADWAY) STALLINGS is teaching music in public and private schools. She is planning to devote almost full time to working on her Master's in music education at Rollins this fall.

ROGER RAY and his wife are living in Middleton, Wisconsin. Roger is working toward his Ph.D. in psychology at the University of Wisconsin.

After graduation, RALPH TANCHUCK, served six months active duty in the National Guard. He now is the office manager for the Concrete Pipe Division of Vulcan Materials Company, Aberdeen, Maryland. He hopes to hear from his classmates.

ERIK KROLL is completing his internship for his Master's Degree in Rehabilitation Counseling at N.Y.U. There's a strong possibility he will begin work for a doctorate in Clinical Psychology next fall.

RUTH LYNN WHITTAKER is teaching first grade in Atlanta. She plans a trip to the World's Fair and to California this summer.

NINI THOMPSON is working for the First National City Bank in New York. She'd love to see any Rollins-ites in the vicinity.

WEDDINGS: PAULA HOROWITZ '62 to MATTHEW CARR on June 16, 1963. Add: 601 Pelham Parkway, N., Bronx 67, New York. BETTY JANE BERNREUTER to Karl Purnell in September 1963. Add: 16 S. 3rd St., Lewisburg, Pa. JOHN H. SUTLIFF to Judith Reiter on July 30, 1963. Add: 203 Grimes St., Ft. Bragg, N. C. DANIEL JACKSON to BARBARA LEE DIXON '64 on June 29, 1963. Add: 7171 Wedgewood Drive, Jacksonville, Fla. BARBARA BATMAN to JAMES MAGIRL '61 on June 22, 1963. Add: 2204 E. Lincoln Road, Bloomington, Ill.

BIRTHS: Mr. and Mrs. TIBOR MENYHART (BARBARA HESS) a son, Michael Alexander, on Dec. 25, 1963. Add: 221 Catalpa Place, Wilmette, Ill. Mr. and Mrs. JUAN JOSE GUERRERO, a son, Christian Gabriel Jose on Jan. 14, 1964. Add: Calle San Fructuoso 141-70-3a, Barcelona 4, Spain. Mr. and Mrs. KREHL EUGENE STRINGER (IDA MARY CONKLIN), a son, Philip Dean, on March 9, 1964. Add: 110 Highland St., Curtis Homes, Altamonte Springs, Fla. Mr. and Mrs. Luther V. Lewis (PAT HAUSER), a daughter, Susan Dianne, on Dec. 26, 1963. Add: N-23 Married Student Housing, N. C. State College, Raleigh, N. C. Mr. and Mrs. James R. Kennedy (PAULA JONES), a daughter,

Susan Cooke, on Oct. 15, 1963. Add: 925 Downey Drive, Nashville, Tenn. Mr. and Mrs. BOYD COFFIE (LINDA QUALLS), a daughter, Judith Ashlie, on June 4, 1963. Add: 755 Wilkinson Avenue, Orlando, Fla. Mr. and Mrs. David H. Benton (ANN MCCARTHY), a son, David H. Benton, Jr., on January 13, 1963; a son, Stephen J. Benton, on Feb. 9, 1964. Add: 1271 Ingleside Ave., Jacksonville 5, Fla. Mr. and Mrs. MICHAEL M. SCHNEIDERMAN, a son, Bob Allen, on September 15, 1963. Add: 88-09 148th St., Jamaica 35, N. Y. Mr. and Mrs. Woodrow J. Halstead, Jr. (ATWOOD WESTMORELAND), a daughter, Jennifer Atwood, on Feb. 5, 1964. Add: 34 Haliburton St., Canton, N. C. Mr. and Mrs. James H. Little III (BARBARA BEHM), a daughter, Diane Adele, on May 18, 1963. Add: c/o Director of Engineering Service, Edgewood Arsenal, Md.

1963

BURT JORDAN is teaching English in high school in Rhode Island and expects to enter graduate school in September. LINDA BERNSTEIN is working on her Masters in Botany in the field of mycology at the Univ. of North Carolina at Chapel Hill, N. C.

MILES HISIGER is in his first year of Harvard School of Business Administration, working towards an MBA degree. Future plans include working in the comptroller's department of a firm involved in international business.

PETER KELLOGG was released from Army duty in February and is now working for Connecticut General Life Insurance Co. in their New Haven branch as Agent.

KEN SALMON, who was a top Rollins pitcher for the last three seasons before his graduation, is currently under contract with Spokane of the Pacific Coast League, farm team of the Los Angeles Dodgers. Prior to reporting to the spring training camp at Vero Beach, Ken spent almost three weeks in Winter Park working out with the Rollins Tars. Friends of BEBE and GINNY '61 WILLIS will be saddened to learn of the death of their mother on March 20, 1964. BEBE is doing graduate work in Spanish at UCLA. SUE DEASY is working for the Red Cross in Korea. She was dubbed the "Katherine Murray of the Eastern World" in a newspaper article written about her popularity—seems she teaches everybody the current popular American Dances in her spare time.

KATIE (MOORE) WELCH (Mrs. David) and family are living in Bloomington, Illinois. Add: 805 E. Front.

SUSIE (WALLIS) LAWTON (Mrs. George F., Jr.) and husband, have

moved to Dayton, Ohio where Susie is teaching biology at a local high school. Add: 7161 Kismet Place, Dayton 24, Ohio.

SANDY (KRUMBIEGEL) CORNELL and ART have bought a home in New Jersey and plan to move into it in June after Art graduates from Rollins. Their new address: 4 Winchip, Countryside, Berkeley Heights, N. J.

WEDDINGS: EDWARD ROLLINS, Jr. to Susan McClennen on December 27, 1963 at Ann Arbor, Michigan. Edward is attending Boston Museum School of Fine Arts. DONALD NESBITT, Jr. to MARY ANN TONE '65 on March 14, 1964 in Knowles Memorial Chapel. Add: c/o Horvath, Route 1, Box 95, Maitland, Fla. Don is working in a management training program with Prudential Life Insurance Co. in Jacksonville.

BIRTHS: Mr. and Mrs. Thomas Pittenger (GWYNETTE GRIER), a son, Thomas Todd, on March 8, 1964. Add: 109 Prospect St., Warwick, R. I.

1964

MARY ANN (TRIMBLE) NIGELS (Mrs. John W.) left in April to join her husband in Berlin, Germany—he is serving a two-year tour of duty there with the U. S. Army.

BOBBIE (SANDERSON) SKEOCH (Mrs. Robert) and husband are in Miami but will be moving back to St. Thomas, Virgin Islands in August.

WEDDINGS: JOYANNA ANGELA PORTA to Robert Diaz Ower on Feb. 22, 1964. Add: Calle 45 No. 9-02, Bogota, Colombia, South America.

MISSY JONES to DENNIS KAMRAD '62 on September 21, 1963. Missy is finishing her senior year at Rollins and Dennis is teaching sociology at Edgewater High School. Dennis started Edgewater's first crew and has coached it to victory over all the college junior varsity crews it has met, except Rollins. Add: 460 Fairfax Avenue, Winter Park, Fla.

1965

PAUL KORODY is working on an International Business program at American University, Washington, D. C. He spent last summer traveling through South America and visited his former roommate, Guillermo Cabrera in Venezuela. WEDDINGS: JOAN BOTTOMLEY and Ira Nowinski on March 21, 1963. Add: 259 W. 70th St., New York, N. Y.

1966

JEANNE HARRISON is presently attending the Univ. of Georgia.

WEDDINGS: PATRICIA B. JUDSON to JAMES A. LINDAMOOD ('65) on Oct. 4, 1963. Add: 505 1/2 Rentschler St., Akron, Ohio. Both are now attending the Univ. of Akron.

ROLLINS COLLEGE ALUMNI RECORD

Entered as Second Class Matter at the Post Office, Winter Park, Florida

Published at Rollins College — June, 1964

Rollins Chairs Now Available

College chairs are now available for the first time to Rollins Alumni.

The traditional college chairs, remarkably sturdy and versatile, are available in arm chair or side chair style. Both are of birchwood, hand-rubbed, black lacquer finish with the Rollins College seal in gold.

Designed to retail at a much higher price, the arm chair is available to Alumni for \$30.00, and the side chair for \$20.00. Orders must be placed through the Rollins Alumni office. Chairs will be shipped direct from the factory in Gardner, Massachusetts, shipping charges collect. (Estimated at from \$2.00 to Boston to about \$7.00 to the West Coast.

Send your order and check to Rollins College Alumni Association, Winter Park, Florida.
